# Behavioral Health Solutions

# Designed for Behavioral Health

Informed by our work with leading facilities, we have developed a family of well designed solutions that provide quality craftsmanship and meet the demanding conditions of Behavioral Health environments. Designed for use in facilities where safety and security are of the utmost concern, our Behavioral Health products meet the functional and quality requirements of these areas, including a lifetime warranty. Our products also offer a comforting, residential feel and can be used in patient, lounge and group areas. Our comprehensive and flexible product offering includes casegoods, desks, beds, and seating with custom solutions available when unique requirements arise.

## A comprehensive range of solutions designed to meet the needs of behavioral health applications.

Secure, soft urethane arm caps to prevent arm cap removal and improper use

No exposed hardware or "pick points" on upholstery or laminate

Weighted to reduce ease of movement

No access to the underside of seating to prevent concealing items within units

Units available with drawers or shelves to accommodate facility needs

Multiple concealed wall and floor attachment mechanisms available for increased safety and security

Standard product includes a gentle radius for safety. Additional radius options are also available.

Tamper-resistant fasteners, non-removable drawers and reinforced shelves for patient and caregiver safety
