Capella Glider & Adjustable Back Glider

Graceful curves and comfortable spring seat construction help patients and guests feel at home in the Capella Glider. Tucked beneath the chair to maintain a clean appearance, the concealed mechanism creates a soothing motion and is available with a fixed or adjustable back. A wide variety of coordinated seating options let you create a cohesive look throughout the facility.

Designed by Nemschoff

Details

The Adjustable Back Glider allows patients to recline within a small footprint.

Durable spring seat construction preserves comfort and shape over time.

A soothing glide motion maximizes comfort while the concealed mechanism maintains a clean aesthetic.
