SleepOver[®] Flop[®] Sofa

Sleepover Seating

Pamona SleepOver Flop Sofa

A simple two-step process “flops” the cushion over to convert this sofa into a comfortable sleep surface that allows guests to stay by the patient’s side. The mechanism-free motion provides a different surface for sleeping than for sitting without changing the sofa’s footprint. Coordinating lounge furniture allows you to create cohesive and functional environments in the patient room.

Designed by David Allen Pessa

Details

Wallsaver edge and leg design protects walls from scuffs

Powder-coated metal legs provide long-term durability

Durable spring seat construction preserves comfort and shape over time

Attached continuous back cushion converts easily to a 30" x 80.25" anti-microbial, moisture-proof and cleanable sleep surface

Coordinated recliner, lounge, and tables for design continuity
